

The national debt has been decreased six millions during the last six months.

In the opinion of the Sawyer men, the bar is mightier than intelligence and brains.

I am not one of those beggarly knights who trot about on horseback.—*The Epistle of Timothy.*

The senatorial fight in Wisconsin is getting hot.—*Chicago Journal.*

You mean not for the Sawyer men.

It has been said by one who knows, that the late Dr. Chapin worried himself to death for nothing.

The Daily Republican and News, of Milwaukee, claims to be "independent" on the senatorial question; but we notice that its independence is decidedly on the Sawyer side of the question.

In showing the remarkable business transactions of this country for 1880, trustworthy statistics not only tell us that there has been a great falling off in the number of failures and in the amount of liabilities of suspended merchants. It has been ascertained also that the products of the soil, were 475 million bushels of wheat, one and a half million bushels of corn, 413 million bushels of oats, 24 million bushels of rye, 40 million bushels of barley, and over six million bales of cotton, beside millions of dollars worth of tobacco, sugar and other crops. In plain words, "the United States now raises enough to feed her own 50,000,000 of people, and to supply the deficiency of the balance of the civilized world."

The Gazette has received the first number of the Milwaukee Daily Republican and News, issued on Monday morning, the 3d instant. It is an eight page paper, handsomely dressed with new type, very neatly printed, and as a matter of course, will be ably edited by Hon. Horace R. Bluee. The general make up of the Republican and News is after the fashion of the Springfield Republican, and is very attractive. The question is, will this new Republican paper meet with success in Milwaukee? This question will be asked by hundreds, and the course of the paper will be closely watched by the Republican party of the State. There is, no doubt, a field for a new Republican paper in Milwaukee, and it must be regretted that this condition of things exists. For some time past the Sentinel has not done its duty toward many of the leading Republicans in Wisconsin. The editor had too many personal quarrels on his hands. He too frequently took the liberty of using his paper as a thrashing machine. He did not exercise good judgment in selecting those who were to receive the condemnation of the Sentinel, and thereby the paper made many bitter enemies, and lost much of its influence with the party. For these reasons, the Republican and News was started. It is hoped that politically, it will be managed in the interest of the Republican party, and that it will not be the organ of any faction of the party. What is needed in this State, is an influential, straightforward, able, and honest Republican morning paper, and we trust the Republican and News will fill the bill.

SOME REASONS WHY MR. KEYES SHOULD GO TO THE SENATE.

It will be noticed in taking an impartial survey of the senatorial question, that the ambitious politicians in the State are working for Mr. Sawyer's election. They are pulling every string within their reach to accomplish their purpose. They want him out of the way for the present. They know and feel the influence of his wealth. It is not Mr. Sawyer who will be elected to the United States Senate, but the money he possesses. Take away his hundreds of thousands, and put him on a level, financially, with the average business man in Janesville, or in any town in Rock county, and people would be laughed at for connecting his name with the high office of Senator. This is one of the solemn facts which should not be overlooked in this campaign. It is a fact which strikes deep in that important question, and the true interests of the State, the best interests of the Republican party, and the demands of intelligence, require that that money and not fitness, should be defeated in this campaign. As one far-seeing and sober minded business man puts it, "every consideration of purity in our politics and in legislation, require the defeat of Mr. Sawyer."

A business man in the Northern part of the State very recently wrote to another business man in Milwaukee, on the Senatorial question, the Sunday Telegraph publishing a large portion of the letter. In telling how the canvass is being worked in the interest of Mr. Sawyer, he says: "Will you tell me how Sawyer expects to get back the \$200,000 to \$300,000 which he is investing in his 'drive' for the senatorship. He has never made an investment yet, without calculating to get it back in cold cash, with big interest. He evidently intends to get back his senatorial investment by means which his railroad and pine land rings have fully matured, and only need him in the Senate to carry into effect."

There are none of these questionable features entering into the canvass on the part of Mr. Keyes. There is no seductive influence of the "bar." He is running on his merits. It is the man we want in the Senate and not his money. Money never did make a good United States Senator. It brings a great deal,

its on air, when it comes to voting and solid work, it is found wanting. I can't trust money as you can a man to go to the Senate for the sole purpose of being United States Senator in fit—one who will throw his whole time, energy, influence and ability, in the work of representing the people of his State and their business interests. Money is treacherous in place like that, and is demoralizing to the mind and brain never back to the people.

These are among the many reasons, why Mr. Keyes should be elected Senator in preference to Mr. Sawyer. He will do more work than Mr. Sawyer possibly can. He is more energetic and has more moral influence than Mr. Sawyer. His whole time will be given to the ties of his office when Congress is in session. He will give the State and party he represents, the benefit of vigorous manhood and all his intellectual powers and not concentrate on acquiring large tracts of pine lands. He will honor State and do credit to the party whereas the responsibility of his election.

In short, he is a man of the people, firm, faithful in all things, and man to wear the dignity of United States Senator.

BURNED DEATH.

NEW YORK, Jan. 4.—A tenement house near 35th street early this morning. It was filled with women and children, and a dozen or more were burned to death or suffocated, and many more seriously burned. Five children were burned to a crisp.

"TRUTH" TO GFIELD.

NEW YORK, Jan. 3.—Tr publishes this morning what it calls an open letter to James A. Garfield, in which it says: "Sir, after a searching investigation, in which we have spared their time, energy, nor expense, we have traced the Morey letter to its origin, ascertained that it is a forgery. This knowledge is due to you from the truth in which that letter first appeared. It is made voluntarily, and as an act of simple justice, for while we believed, we did until within a few weeks past you were the author of the letter, nor bribe could tempt nor threat intimidate us into making a contrary statement. But, having ascertained our error, it is a gratification to give the same prominence to the knowledge that we gave to a forged letter itself, and thereby make the amendments in our power for the wrongs of which Truth was the unconscious instrument."

Truth goes on to say that its knowledge who is the author of the forgery and have the proofs in their possession, which will be produced at a proper time in a court of justice.

CABINETS.

Speculations Relating to the Secretaryship.

WASHINGTON, D. C., January 3.—opinion of the attorney-general make necessary for the President to appoint secretary of the navy, instead of designating another member of the cabinet, serve temporarily. In the first instance, this is what the President expected to do and he gave his friends to understand that he intended to appoint a Southern man. Some difficulties appear to have arisen in that direction, and one difficulty was recognized as attending a selection from any quarter named, that the time of holding the office would be too brief to justify any one of prominence in desiring a present position or occupation for the remaining weeks of President Hayes' term. The statement here in regard to the place having been offered to Mr. Morton of New York, with the assurance that he would

be retained by General Garfield, are not credited. That it has been offered him, and that as an inducement to his accepting the probability of General Garfield retaining him has been urged upon him, is believed. That he declined it on the ground that he would like nothing but the Treasury cannot be true, since he was fully informed, when General Garfield was here, that he could not be made Secretary of the Treasury.

General Garfield's reasons, then communicated to him, were that the country would not be satisfied if the treasury department and the custom-house were both in the hands of New York men. General Garfield at the same time, expressed his deep sense of obligation to Mr. Morton for the great service he had rendered among moneyed men in the campaign, and there have been various reports since that he would be well pleased if Mr. Morton would accept the navy department. New York men seem, however, altogether unwilling to agree that they will be content with the navy department. Its patronage is of little consequence to the State outside of the Brooklyn navy yard.

TENNESSEE.

The Republicans Score the First Victory.

NASHVILLE, Jan. 3.—The Republicans scored their first victory of the session of the Forty-second General Assembly by electing a member of their faith speaker of the House by the majority of one, secured by vote of the only Greenback member of the House, Speaker Ramsey was once a Greenbacker. They were also successful in seating Robert McKenna, Republican, to whom objection was made on account of alleged illegality, by reason of having been convicted of incest and pardoned by Governor Porter before being sentenced. The matter was left to the Democratic clerk of the House, who decided in McKenna's favor, holding that he was entitled to the seat by failure on the part of the opposition to file notice of contest with him.

THE SPRAGUE SCANDAL.

Salmon P. Chase Once H. H. Unwhipped a Man Who Became Obnoxious.

COLUMBUS, O., Jan. 2.—The Sprague divorce suit is attracting no little attention here among the friends of Mrs. Kate Chase Sprague, and every move of the attorneys is watched with eager interest. A prominent New York attorney is now in this city engaged in taking depositions of old citizens with good memories relative to Mrs. Kate's escapades and flirtations with a number of gentlemen while residing in this city. It is understood that the attorney for Gov. Sprague has obtained and will bring before the Court, evidence bearing on this particular point, and, to strengthen his client's case, will give the out-ome of the alleged indiscretions of Mrs. Sprague with a prominent gentleman in business and social circles, the outcome of which was the administration by Gov. Chase of a horrid whipping of the gentleman who was not only obnoxious to the family but also a married man. From the attention given to minor details in collecting evidence, it is quite apparent that the full history of Miss Kate Chase's life in this city will be again spread before the public.

PROF. WATSON'S WILL.

Beginning of the Fight for the Possession of a Dead Man's Property.

ANN ARBOR, Mich., January 3.—Today has been set for the hearing of the petition for probate of the will of the late Professor Watson, but his brother, Edward Watson, of Sioux Falls, Dakota, by his attorney, gave notice of his intent to contest the will, and asked a postponement of the hearing, which was granted, for two weeks. Professor Simon Newcomb, of Washington, D. C., and Leonard Gruner, of this city, were appointed special administrators. They left this afternoon for Madison, Wisconsin, to look after the interests of the estate there.

RAILROAD RIGHT OF WAY.

ST. PAUL, January 3.—The Pioneer Press Yankton special says: R. S. Gardner, special agent of the Indian service, and George J. Bliss left this city today en route for the Pine Ridge Indian agency for the purpose of negotiating a treaty with the Indians for the right of way of the Northwestern railroad across the reservation to the Black Hills. The trip will involve a month's time and consists of 70 miles.

CHICAGO GOSSIP.

To the Editor.

CHICAGO, Jan. 3.—The Jewish church, B'nai Shalom, held a fair lately of two weeks duration. It was managed by enterprising ladies in order to liquidate a burdensome debt of \$12,500. It was a success, the receipts were more than enough to pay all incumbrances. Considerable financial assistance was rendered by people not of the Jewish persuasion, and the pastor and congregation feel very grateful. Such interchanging of courtesies between churches of different denominations and beliefs, overcomes prejudice of race, and cements all in one common brotherhood.

Our bogus butter makers, had a cold wave strike their operations last week, in the shape of an ordinance by our common council, very kindly requesting them to label all packages according to the true nature of the contents, or pay a fine of \$100. Our adulterers love pure butter.

A counterfeit egg manufactory was about starting, but the above ordinance put a quicquos on the operations and the machinery is for sale, and the hens, ducks, and geese are correspondingly glad.

Barley is in great demand at high figures; breweries and distilleries cannot obtain enough of good quality to meet their necessities. Malt houses are sending out agents in the country to purchase at the best bargains they can make.

The year just closed has been a very prosperous one for Chicago. The value of manufactured products was \$286,200,000.

The number of hogs received were 7,252,000 head, 2,040,000 live hogs received numbered 1,394,142. The valuation of live stock received was \$38,983,180.

The number of bushels of grain received was 163,522,410.

Sheep are bringing from \$3.50 to \$6 per 100 pounds, and very scarce. Coal is arriving in large quantities by rail, both hard and soft if the fine weather would come soon, prices would most assuredly tumble, as they will in any event before long. Prominent coal dealers can never get elected to office in Chicago.

The city employees were paid, Friday, and depleted the treasury to the extent of \$200,000 for one month's wages.

Many saloon licenses have of late been revoked, owing to non-compliance with the 12 o'clock ordinance, and other unlawful acts.

The trial of Joel Henry Wells, in our county court, for insanity, is attracting considerable attention.

Divorces are very numerous of late, and not less than 30 application in one month.

MISCELLANEOUS.

His absence was not noticed until the train reached Afton. The train immediately backed down and met him coming towards it. He was taken on board as soon as possible and brought to his home in this village. Soon after arriving here, he fell into a comatose condition from which he never rallied. He died the next morning at 9:15 a. m.
